WHAT IS ONE THING YOU LOVE MOST ABOUT YOUR JOB?

Denzyl Prentice, Real Time Acquisitions, LLC

"One thing I love most about my career is the opportunity to train and lead with others. It allows me to **positively influence and impact people's lives** while helping them achieve success in ways they never thought possible. **Seeing others thrive and grow through guidance and support** is incredibly rewarding."

Roger Corbin,
LCSW

"The best part about my job is getting to observe the transformative changes people make in their lives. I don't know if I will ever get tired of **seeing people overcome their false perceptions of self** that have led to thought distortions and an unhealthy view of the world. It's fascinating to witness people using tools to **improve their thought processes and change their lives**. It is an honor to be a part of that journey with people"

Mollie James
Oceanside Gold
& Silver
Exchange, LLC

"What I love most about the gold and silver buying business is the ability to turn unwanted items into **profit for my clients**. It's surprising how much a broken necklace or a mismatched earring can be worth!"

Chaconna
Downs, C. Jaqis
Enterprises LLC

"The one thing I love most about my job is **seeing lives change**. Families and communities are transformed because of it. When I can help a person **become the best version of themselves**, it transfers into their home, and manifests in their community. It's knowing that I've helped make things better. I love that I GET to do this work!"

"As an accountant and bookkeeper, **seeing my client's succeed in their business** is what I love most about my job. There is satisfaction in transforming messy books into clean, organized financial records. Watching chaos turn into order through your skills **can be deeply rewarding**. Knowing that my work contributes to my clients' success **fuels my sense of achievement**. Also, running my own firm and setting my schedule allows me to balance my work and personal priorities, like spending time with my sons and pursuing my faith."

Orjanette Bryant
Vitalift Infusions, LLC

"There are a lot of things I love most about my job, but my all time favorite is **helping the veterans**. I think it's very important that we actually **give back to them and recognize who they are**. I also enjoy serving our community holistically by doing a non-invasive approach to wellness."

Aaron
Langford

"I enjoy being a software engineer because it offers many **opportunities to work on different challenges** with customers. I get to see my work get sold and used to solve problems. There is always some **new adventure** calling around every corner"

Miguel Soto
Facil Solutions Group

"I love my job because it represents the **freedom and growth** I've worked hard to achieve. Starting out in gig work gave me flexibility and experience to excel. I'm proud to run my business alongside my wife and business partner. Together we're able to **help entrepreneurs and businesses level up** while building a lifestyle that reflects true freedom."
